
AKSHAY KUMAR GUNTA

REACT NATIVE DEVELOPER

Hyderabad, Ind 500009 ♦ 7893451345 ♦ gakshay1504@gmail.com

♦ **LinkedIn:** <https://www.linkedin.com/in/akki7/>

PROFESSIONAL SUMMARY

Skilled React Native developer with around 3 years of experience in building robust and user-friendly mobile applications. Proficient in developing user interfaces, debugging code, optimizing performance, and integrating with third-party APIs. Successfully deployed and maintained mobile applications on both Android and iOS platforms. Eager to contribute to innovative projects and continuously learn new technologies.

WORK HISTORY

MSRcosmos LLC – Hyderabad

Mobile Application Developer, 04/2022 - Current

- Maintained a strong focus on continuous improvement by staying informed about emerging technologies in the mobile ecosystem and actively participating in architectural design discussions." (This emphasizes a broader perspective beyond just Android and iOS).
- Proactively researched and evaluated emerging technologies to identify and implement solutions that improved development efficiency and enhanced the developer workflow." (This highlights proactive research and a focus on developer workflow).
- Debugged and resolved issues related to the interaction between embedded software and the mobile application by analyzing embedded code." (This focuses on the debugging and resolution of issues).
- Performed technical analysis to determine the optimal approach for meeting project requirements and functional objectives." (This emphasizes finding the best approach).
- Developed and proposed integration solutions that leveraged native software development kits, web services, and other technologies to seamlessly connect with both proprietary platforms and third-party systems." (This emphasizes the development and integration aspects).
- Collaborated with quality assurance staff to validate code and effectively debug identified issues.
- Maintained existing software by implementing necessary updates to resolve errors and adapt to changing performance requirements.
- Successfully coordinated the deployment of new software applications and verified their functionality against design specifications, ensuring a smooth and successful launch.
- Resolved software errors to improve application performance and enhance usability for end-users.
- Provided ongoing technical support during the post-launch phase of applications, ensuring the prompt resolution of any issues encountered by users.

- Improved development process efficiency through effective communication and collaboration with project managers, designers, and testers.

PROJECTS

TrackEx (Feb 2024 - Present):

Travel & Expense Management via a Single, Unified Platform Control on Travel Budget and Actionable Insights on Travel Spend

ROI reflects real value of business travels

Full-on, In-App: Planning, Booking, Control, Approvals, Claims, Reimbursements, Visibility on Spend, Reports, Compliance, Policies & Procedures

Transparency in the Claims and Reimbursements Process

Mobile Application:

Android: https://play.google.com/store/apps/details?id=com.trackex.enterprise&hl=en_IN&pli=1

FarmsIQ CACL (Nov 2023 - Mar 2024):

With inefficiencies and complexities influencing the movement of agricultural products throughout the globe Farms IQ empowers the Agri supply chain by offering versatile applications to multiple stakeholders in the Agri landscape. Namely FPOs, FARMERS, KNOWLEDGE PROVIDERS, RETAILERS, FOOD PROCESSING UNITS, EXPORTERS, AGGREGATORS & TRADERS.

Mobile Application:

Android App: <https://play.google.com/store/apps/details?id=com.farmsiq.farmsIQ&hl=en>

Ticketing Tool - (Jul 2023 - May 2024):

Ticketing is a centralized portal that helps manage support tickets across IT, HR, and Accounting departments for all employees in the organization. This app allows you to raise and track requests with just a few clicks. It also keeps you notified of incoming tickets by sending you push notifications.

Key features:

- Easy to create a request
- View all the tickets at once or categorically
- Provide approvals and comments with minimal clicks
- Never miss an update with push notifications
- Ability to add priorities to open tickets
- Update details like priorities, agents assigned, status and others

Mobile Application:

Android App: <https://play.google.com/store/apps/details?id=com.msrgcosmos.ticketing&hl=en-IN>

iOS App: <https://apps.apple.com/us/app/msr-ticketing-service-request/id1663506978>

Mail Tracker (Jul 2023 - May 2024):

The mail tracker assists in documenting and tracking all inbound mail to the organization. Inbound mail tracking provides the current status of letters, parcels and other mail items

Key features:

- Inbound and outbound inland mail tracking
- Review of the latest status of the mail item
- Easy documentation
- Items Tracking History
- Item type, status, origin and destination details
- Reporting of the date, time, location, and processing information for each mail item received
- Item delivery confirmations

Mobile Application :

Android App: <https://play.google.com/store/apps/details?id=com.msrgcosmos.mailtracker&hl=en>

MSRVantage (Apr 2022 - Jul 2023):

Establish traceability right from the source across the supply chain and build an effective loyalty program for retailers, end consumers, and influencers. With MSR vantage, I deployed both StakeHolder App (i.e. MSRVantage Track and Trace, FarmsIQ) and Consumer App (i.e. MSRVantage Club, Farms@Connect). With these applications, we provided the End-to-End traceability of both the Products & packages for the Geo-location while scanning the QR code irrespective of the products. and I have published multiple apps like MSRVantage Track and Trace, MSRVantage Club, FarmsIQ and Farms@Connect to the Google Play Store & App Store with apps made with React Native. I have good knowledge of the Firebase distribution service and the Google Play Store, which speeds up testing and deployment of mobile applications for Android & iOS.

Mobile Applications:

FarmsIQ Stakeholder App:- <https://play.google.com/store/apps/details?id=com.farmsiq.farmsiQ>

FarmsIQ Consumer App:- <https://play.google.com/store/apps/details?id=com.farmsiq.farmsiQconnecte>

MSRVantage Trace and Trace:-

<https://play.google.com/store/apps/details?id=com.msrvantage.trackandtrace.lubechain>

MSRVantage Club:- <https://play.google.com/store/apps/details?id=com.msrvantage.vantageclub>

Timesheets - V2 (Jul 2023 - Nov 2023):

Timesheet App tracks employees' time and efforts in all their assigned projects, with

- real-time status updates,
- Submit timesheets with attachments.
- Access previous data.
- Fetch project brief and customer information.
- Track Timesheet status

Swift access to the respective project through easy swipe.

Mobile Applications:

Android App: <https://play.google.com/store/apps/details?id=com.mscosmos.timesheets&hl=en&gl=US>

iOS App: <https://apps.apple.com/app/ms-timesheets/id6451482238?sr=AppAgg.com>
